

GT MECHANICAL

You want to make just one call for all your heating, ventilation and air conditioning needs.

Make that call to GT Mechanical and get a complete solution for all your HVAC project, design, build and service needs.

In 1991, Tim Uher founded GT Mechanical, Inc. to provide a high quality, full service HVAC experience, with the best safety standards, to the Chicagoland and Northwest Indiana region.

Since that day, GT Mechanical, an award-winning, LEED certified organization, has earned an unmatched reputation. This family-owned business brings quality HVAC engineering, design/build, installation, service, products and system solutions to the commercial, institutional and industrial markets.

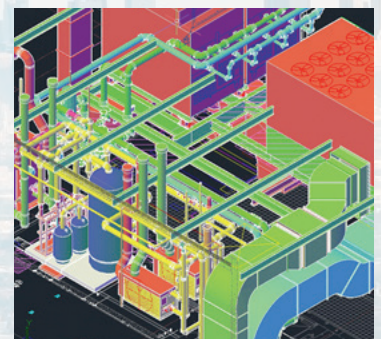

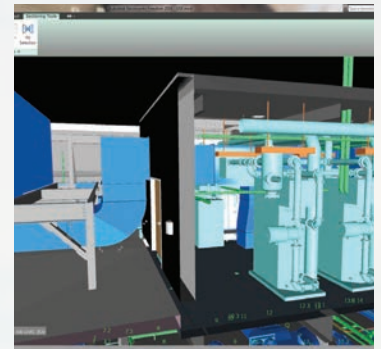

Tim and his brother Greg Uher lead an exceptional team of project managers, respected and licensed engineers, drafting professionals, sales executives, union labor, dedicated customer service and office staff. Our skilled technicians and field employees are members of Sheet Metal Local 73 or 265 or Pipe Fitter Local 597.

Together, GT Mechanical, Inc. and GT Mechanical Projects & Designs, Inc. safely solve some of the area's most challenging HVAC issues, while looking forward to being an integral part of the future of HVAC technology.
